If only there was an award for the most succinct e-mailer at the Corps. You would win, hands down.

Rhodemaker attached

W61 is in a holding pattern

BR5 - We are still evaluating the best way to restore Busseron Creek and are having a healthy ;lively debate on it now. They are in the process of running HEC RAS modeling.

Can you send me a copy of the permit please? Also, if West 61 was issued, can I have a copy of that permit too? What's the latest on BR 5?

I will probably go out West in early spring but sooner if something comes up. My husband is already out there. I am exploring several possibilities right now (with EPA and otherwise). Lots of unknowns that need to be worked out. I'm not sure if they will move someone into my position...

Hi George,

What is that status of this project? I am trying to go through all my stuff and get it organized before I head out to Portlandia.

Thanks,
